## Fire Free Update

Thanks to the tireless effort of Board Member Mike Van Waas, our association has been awarded a grant from the Deschutes County Rural Fire District #2 in the amount of \$2,200. One provision of the grant was for the grant money to do the most good for the most people, and our commitment to clear large areas of common land met this requirement. Over several weeks many neighbors (owners and renters alike) showed up to cut, drag and clear. The board thanks every one who participated.

Our work is on hold for the summer, and in the fall we will proceed with the removal of the collected brush. Options are to find a business with a ride-on chipper which can access the gully, or to burn the piles in collaboration with the fire department.

Thanks, too, to all the residents who cleared their own properties. Your efforts help protect the whole neighborhood.

This nice little woman's jacket was left on the common area while clearing brush. It is a hoodie, size small, with a Burnside label. Please contact Audrey to retrieve. It wants to go home! [daveaud@mac.com](mailto:daveaud@mac.com)
